Dementia Care Workshop
For Families, Friends, and Care Partners

Friday, August 9 @ 9-12pm
Canterbury United Methodist Church
Westley Hall

In this workshop you will learn the value of well-being in caring for someone with dementia or a cognitive impairment. We will discuss the seven domains of well-being, the adaptable framework and how to apply this person-centered approach to our friends living with dementia. Mel is interactive in her presentations and encourages those questions that are hard to ask.

Helping others achieve their goals has been at the heart of Mel Coppola’s career path. Through training, coaching and facilitative learning experiences, she has helped others open up to new ideas and possibilities. For the past five plus years, those ideas have focused on person-directed care values and principles, primarily in the aging field.

To RSVP, please contact Valerie Boyd at 874-1523 or email Valerie.boyd@canterburyumc.org
